JATHNIER CORPORATION
Ruby St., RGA Village
Dacudao, Davao City
Landline: (082)286-4006

8. **Production Report –** in this report it shows the production monitoring of the branch in kilos of breads by day. The number kilos fetch from the data encoded in the Finish Goods Transfer (FGTS). Select month, click "fetch items" and "fetch data" for the overview of the report.
9. **Summary Report –** all the data encoded in the modules mention above will be posted in this report that serves as the inventory report. After all items posted in summary click "calculate" to reflect the total amount. This report shows the total sales summary, cash count, cash variances and even the sales breakdown. The total sales summary report and total sales breakdown should always be equal. ***Please take note to click the "post to summary" to submit reports to server.***

"Submit to Server" is the very last module for the supervisor to perform, so that all the reports encoded by branch will be visible to the assigned analyst timely. ***Once the data is submitted to the server it will be considered as final whatever the discrepancies or error, corresponding sanctions are applicable.***

Please make sure to daily update the database of the application as the system update is automatic.

For more inquiries and concerns please feel free to reach out **Ms. Carmae Deligero** – Cost Accounting Supervisor. Please be guided accordingly, thank you.
