STOCK REQUEST

Date September 19, 2024
To: Sir Rheo Limbaga / Property Custodian
From MIS/IT Department
Subject: COMPUTER PARTS STOCK REQUEST

Dear Sir,

The operations team has requested that we stock or reserve certain computer parts. This is to reduce the hassle of waiting for an extended period when purchasing these parts, which can sometimes take months. Without these essential components, branch operations may be disrupted due to non-functional computers. Therefore, I have listed the most commonly used computer parts below.

DESCRIPTION	QTY
Keyboard	3
500 Watts Power Supply	3
Monitor	2
Power Cords	10

DESCRIPTION	QTY
Mouse	3
Harddrive	5
HDMI Cable	5

Some parts, such as the motherboard, processor, and RAM, are not necessary to store for extended periods since they rarely fail and are susceptible to corrosion or damage during storage. I have attached an approved document from the Operations Manager for your reference.
