Re: **POLICIES & PROCEDURES: JATHNIER CORPORATION OFFICIAL COMMUNICATION SYSTEMS; RBS WEBMAIL EMAIL SYSTEM AND RBS DOCUMENT CONTROL & ARCHIVING SYSTEM.**

Moving forward to our corporate vision in business year 2022, Jathnier Corporation will initially launch its official business communication through its RBS Webmail and RBS Document Control & Archive. This automation programs are basically designed to enhance efficiency and safeguard all our internal corporate communications.

1. RBS Webmail – this will be use to enhance security and to document internal communication between Jathnier Corporation's departments & sections. Internal communications covers all business related communications (e.g. events awareness, reminders, instructions, directives, reports, presentations & other work related concerns).
2. RBS Document Control & Archive – this will be use to ensure the relay channel of Official Major Management Directives, Systems & Processes through a Memorandum Form to its recipients; and to archive properly the issued memorandums for referencing and denotations.

A full understanding of the responsibility and accountability are expected to all personnel who were assigned and designated as custodian to handle Company Email and Document Control accounts. They have to be careful and diligent in using the company's automation systems and the content therein. **Deviation of these is considered a major infraction under the Company Code of Discipline, #6 Company Policy and Procedure for Major/Grievous Offense.**

In line on this direction, the Human Resource Department and Management Information System Department will spearhead the proper implementation of this automation systems. Since, this automation systems are considered a valuable asset by the company, an Asset Accountability Form will be implemented with proper authorization from HRD & MIS IT.

This directive will officially start on **July 11, 2022**. Any clarification on this matter please communication accordingly.
