MEMORANDUM

Date August 9, 2023
To: Department Heads / RBS Officers
From MIS/IT Department
Subject: MEMO: Company Email Service Full Implementation

Dear Esteemed Officers and Department Heads,

We are excited to introduce a new policy that is set to be implemented with utmost urgency. This step is essential to enhance our email management practices and ensure the safeguarding of crucial communications. Our revamped Email Service will now encompass two providers:

I. Internal Domain: Rosebakeshop.net

Under this domain, communication is limited within our esteemed company organization. This means that we can seamlessly exchange emails within our .Net domain. It's important to note that sending emails beyond our organization's purview is not feasible due to restrictions imposed by our Internet Service Provider. On occasion, this service might encounter temporary disruptions. These could arise from internet connectivity issues, power outages, or other common factors that affect email services' availability.

II. External Domain: Rosebakeshop.co

Our .co domain operates externally and offers a slightly different experience. It comes with certain constraints such as a 1 Gigabyte storage limit per account and a maximum file attachment size of 25MB. While 1 Gigabyte is substantial and should accommodate ample data, even with attachments like PDFs, MS Word, MS

Excel, MS PowerPoint, and compact images, This service is seldom interrupted, with rare instances primarily associated with Cloud Service maintenance on their servers. This service allows seamless communication with various email platforms, including Gmail, Yahoo, and other third-party providers.

Your cooperation in adhering to these new guidelines will undoubtedly contribute to streamlined and effective communication practices. We appreciate your attention to this matter and anticipate a successful transition to these improvements.
