DBC Department
Evaluation Report

Supplier: **LINDEN TECHNOLOGIES PHILS. INC.**

Date Received: **December 2, 2023**

Product Name: **EGG SEPARATOR MACHINE**

Date Conducted: **January 24, 2024**

Evaluation Result:	☒ **Approved**	☐ **Disapproved**

Evaluation Details:

Egg Separator can be recommended for the mass production of cakes and pastries.

Initial Order: **1 unit**

Recommendation:
__ **Product can be main RM for** _____
__ **Product can be alternative RM for** _____
__ **Product needs improvement in:** _____
__**Other recommendations:**
Based on the trial run that was conducted last January 23, 2024 with the EMD technician (Jun Cui), the Material Controller (Mark Abaya), the production supervisor (Romelyn Basino) and the production manager (Ellen June Miguel) the Egg Separator machine can be used for mass production. But ensure all eggs are fresh daily so that the egg yolk and the egg whites would separate properly.

Prepared by:

Ellen June G. Miguel
Production Manager
Davao Baking Center

Approved by:

Melina G. Comedido
VP- Jaunier Corporation
