Job Summary

A material controller oversees the material needs of the depot or sub-warehouse. Their duties in this career are to ensure compliance with company and industry regulations, maintain the quality and quantity of supplies in stock, prep for product assembly, monitor delivery schedules, and obtain materials to package the products. The responsibilities also include negotiating with vendors, preparing reports on company goals, conducting safety inspections of the environment and equipment, and completing data entry of inventory after a physical count. A material controller collaborates with finance, operations, purchasing, and various other departments.

Primary Duties & Responsibilities	Frequency	100%
1. Ensuring that product quality standards are met by selecting materials that meet specifications and rejecting those that do not.	Daily	10
2. Coordinating with the Warehouse Department and certain suppliers to ensure that materials are delivered on time.	Daily	10
3. Monitoring inventory levels and ordering additional materials as needed to ensure that supply does not run out.	Daily	10
4. Collaborating with production teams to ensure that materials are always available when needed.	Daily	10
5. Assisting in planning for future material needs by developing and maintaining a forecast based on historical data and plans for growth or expansion.	Daily	10
6. Reviewing invoices for accuracy and ensuring that payments are made on time.	Daily	10
7. Calculating and verifying material costs for invoices	Monthly	10
8. Preparing reports on material inventories and costs for internal use by company management.	Daily	10
9. Implementing and maintaining inventory policies and procedures.	Daily	10
10. Conducting regular inventory audits and stocktaking activities.	Daily	10

Organizational Relationships

Direct Responsibility

1. Accounting skills: Material controllers use accounting skills to record and track inventory, order new materials and maintain records of their inventory. Accounting skills are also important for budgeting, planning, and forecasting.
2. Data entry: Data entry is the ability to type information into a computer. As a material controller, you may be responsible for entering inventory data into a computer system. This is a necessary skill for the job and can be learned through computer training.
3. Inventory management: As a material controller, you may be responsible for tracking and organizing inventory. This involves tracking the location of materials, monitoring the amount of materials on hand, and ensuring that materials are delivered to the correct location. Inventory management skills can help you track materials and ensure that your company has the right amount of materials on hand.
4. Organization: Material controllers use organizational skills to keep track of inventory and ensure that products are delivered to the correct location. Organization skills can also help you to identify and fix any issues that may arise with your inventory. For example, if you notice that you're running low on a certain product, you can use your organizational skills to identify the source of the issue and find a solution.
5. Problem-solving: As a material controller, you may be responsible for ensuring that the correct materials are delivered to the correct location. This may involve coordinating with suppliers and other employees to ensure that the correct materials are delivered to the right place. You may also be responsible for resolving any issues that arise during the delivery process.
6. Customer service – able to communicate effectively with customers, providing them with information and assistance, and resolving any problems they may have.

Internal Relationships

1. Adherence to internal corporate compliance standards and procedures/ processes.
2. Ability to work well in a small, but growing team environment with co-associates. Team spirit, with a customer-focused attitude.
3. Willingness to work flexible hours and render overtime as needed.
4. Ability to remain calm and focused in a fast-paced environment.

External Relationships

1. Team spirit, with a customer–focused attitude.
2. Company Employees – Maintains healthy working relationships by establishing professional boundaries rooted in the company's Code of Discipline
